WELL TRAINED DRIVERS

**When all that fails**  
don't you want your students  
riding on the toughest small  
school buses on the road?

**Trans Tech Buses. New York Made. New York Tough.**

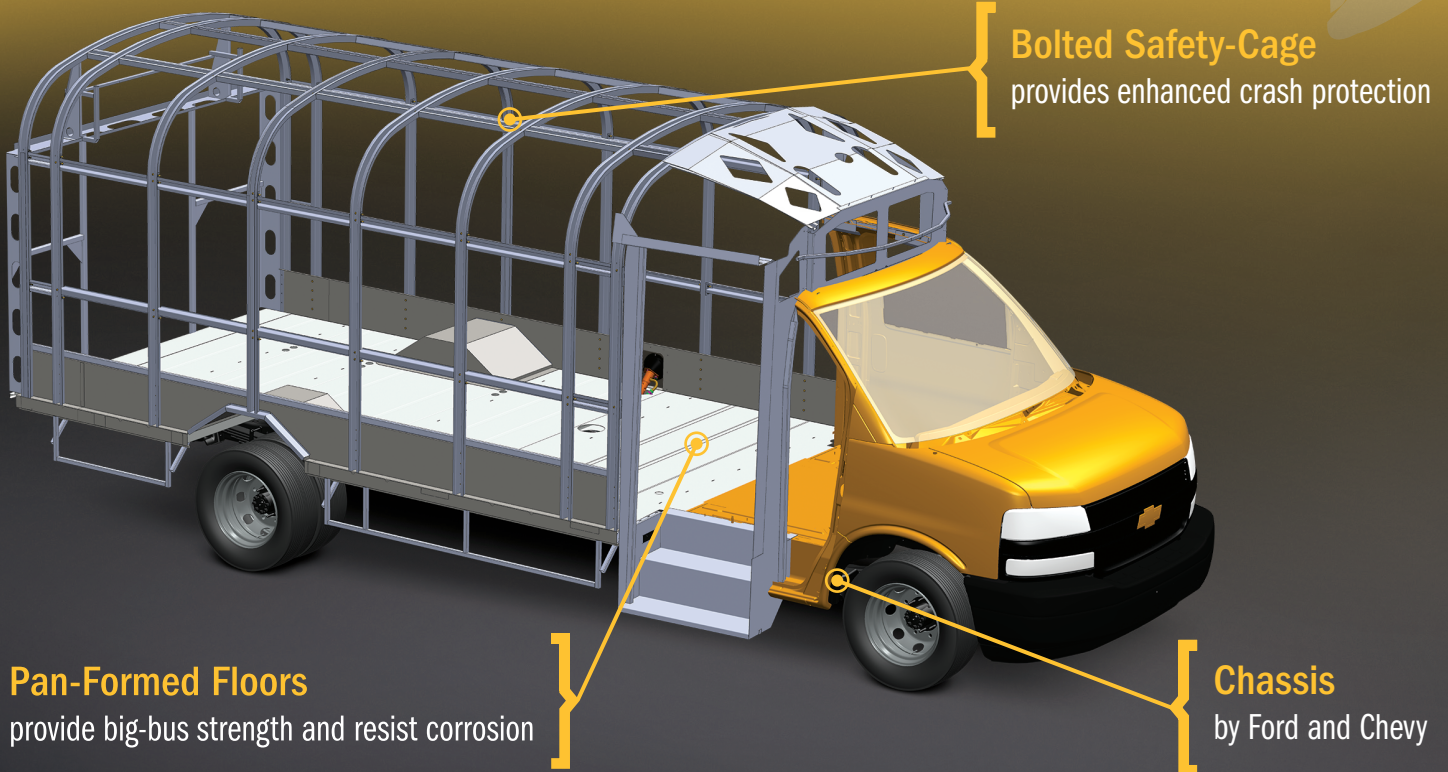

# Vehicle Highlights

- Pan-formed floors provide big-bus strength and resist corrosion
- Bolted safety-cage provides enhanced crash protection
- Steel skins for increased toughness on all dual wheel models
- Versa-Track seating ensures maximum versatility and safety
- Single-seam roof construction reduces maintenance costs
- Aerodynamic design improves fuel efficiency
- Industry-leading warranty – 3 years/60,000 miles
- Chassis by Ford and Chevy
- Made in New York

Offering a family of single and dual wheel models, Trans Tech buses provide big-bus strength and enhanced crash protection.

# Leonard Bus Sales features durable and versatile Type-A school buses from Trans Tech

## NEW YORK'S ONLY SCHOOL BUS MANUFACTURER

### ST Aero

Built with big-bus durability, this single-wheel's aerodynamic design helps improve fuel economy and reduce transportation costs all while carrying up to 20 passengers.

### SST

The 35 passenger SST's optional flat-floor provides unmatched versatility, while its signature aerodynamic design helps increase this dual-wheel's fuel efficiency.

### Roadstar

The industry's only narrow-body dual-wheel school bus can carry up to 29 passengers and features 3+2 seating, 12 inch aisles and exceptional sightlines for added safety.

More than great buses...
